ABOUT US

RINA Prime Value Services is a Real Estate Service provider with a core focus on valuation and technical property certification, technological innovation, and sustainability.

Priming your future

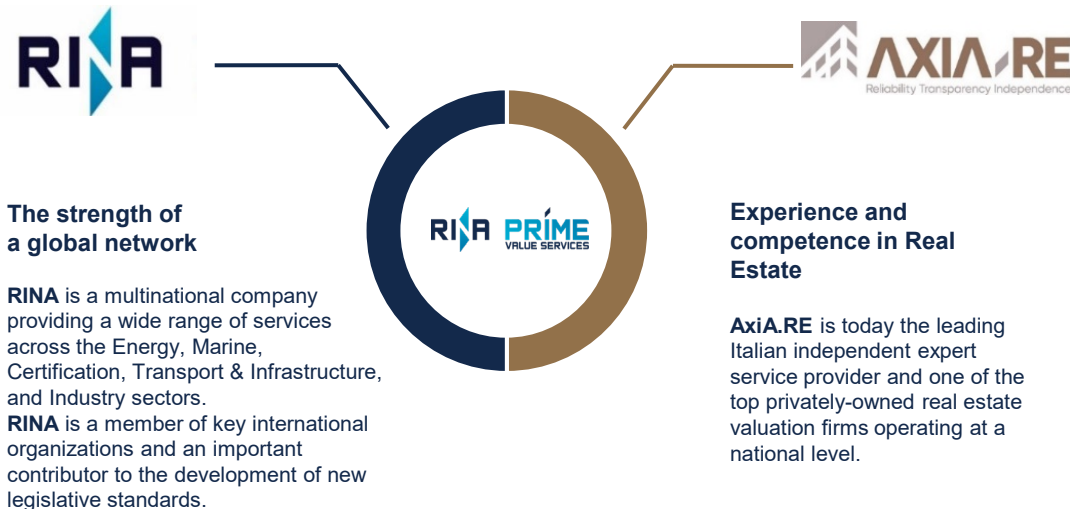

CORPORATE STRUCTURE

RINA Prime Value Services originates from the merger of AxiA.RE, a company specializing in technical and economic real estate valuation services (with a client portfolio of institutional importance consisting of the main Italian asset management companies and banks and a portfolio of real estate funds under valuation of great importance) and the RINA SERVICES business unit active in technical services in the Real Estate sector for over 15 years.

RINA Prime Value Services is today the Legal Entity of RINA operating in the Real Estate sector, 50% controlled by RINA and the remaining 50% by the founding partners of AxiA.RE which, thanks to a specialized structure, supports public market operators and private.

RINA Prime Value Services has a complete supply chain of services capable of protecting and increasing the value of the real estate capital over time at every stage of the investment, from concept / feasibility to project development, from the construction phase to the management and disposal phase.

A team of experts of the highest standing, a remarkable track record, advanced high-performance tools.

RINA WORLDWIDE

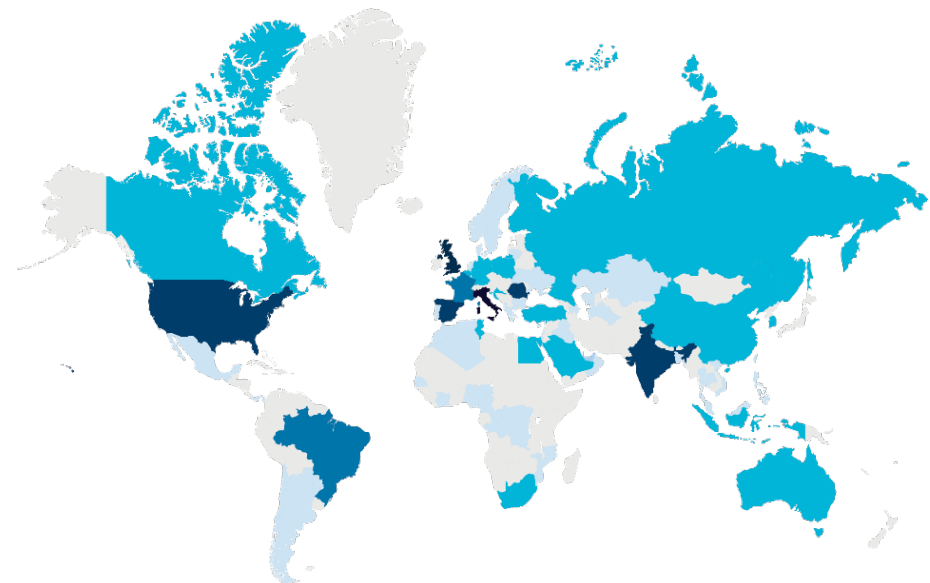

With nearly 150 years of experience across a wide range of industries, RINA is a multinational company that helps customers build strong and successful businesses.

RINA provides a wide range of services across the following sectors:

- **Energy & Mobility**
- **Marine**
- **Certification**
- **Infrastructure & Real Estate**
- **Industry**

Through a global network of 3,900 professionals, operating in 200 offices in 70 countries, it supports market players throughout the entire life cycle of their projects.

The Real Estate business unit has matured internally within RINA since 2000. After a careful evaluation, in 2018 RINA decides to strengthen and consolidate its presence in the Real Estate sector and, in collaboration with AxiA.RE, gives life to RINA Prime Value Services.

BUSINESS INTELLIGENCE

RINA Prime Value Services employs the largest and most innovative Real Estate Business and Data Intelligence system available on the Italian market. A state-of-the-art management and valuation platform, exclusively owned, fully automated, and continually enhanced by artificial intelligence.

The RINA Prime Value Services Business Intelligence system processes millions of data items to support investment operations for either risk management or decision-making. Our team of experts **transform data into organic information**, providing a decisive tool for improving corporate management and operations, limiting potential risks arising from a surface-level examination, and increasing production flows.

Innovative real estate risk analysis thanks to an efficient integration of the most important data bases available on the Italian territory:

- **Auction System:** the largest auction archive in Italy
 - **Free Market:**
 - ✓ systematization of all relevant data on property **transactions and rents across the national territory, derived from assigned funds**
 - ✓ estimates for the **retail and corporate sectors, carried out by BU Loan Services**
 - ✓ **data provided by the Gabetti Studies Centre** and extracted from **deeds of purchase and sale** retrieved directly with the competent public archives
 - **Socio-economic context:** territorial analyses based on information circulating on the web, aimed at best defining localised territorial ratings
- **Artificial Intelligence**
 - **Automated data extraction** in all property transaction marketplaces, retrieved directly with public archives
 - **Benchmarking algorithms** provided in the order required
 - **Quick access to reports and data analyses** allowing timely decision-making on behalf of management

FOCUS ON SUSTAINABILITY

Our multidisciplinary approach allows us to serve our Clients while factoring in all due considerations to effectively introduce sustainability in their operations, combining a diverse set of economic-financial and technical skills, as well as our expertise in the fields of corporate governance and social responsibility.

Our goal is to support stakeholders in pursuing their own objectives according to current ESG standards by adopting the UN's Principles for Responsible Investment (PRI) and the GRESB benchmarks. This activity is rooted in our solid set of technical competencies in the Green Building field (according to LEED, BREEAM, WELL standards).

RINA Prime strives to raise our and others' awareness on the topics of sustainable investment and the green economy on several fronts, through an expertise that ranges from implementing ESG models, ESG-compliant Due Diligence, to Green Building.

To cover the entire Eco sisma bonus, RINA Prime Value Services has created Prime Green Solutions, a company specializing in building renovation activities in the SuperBonus 110% area.

SUSTAINABILITY

Our services allow Clients to safeguard and build up their real estate capital over time in each stage of the investment process, from the initial concept to the planning phase, from construction to management and divestment, ensuring investor confidence and stakeholder satisfaction. A comprehensive array of solutions to reduce running and upkeep costs, improve competitiveness, and increase efficiency and performance.

Priming your future

VALUATION

RINA Prime Value Services provides Valuation services via the **AxiA.RE** brand, market leader in appraising real estate funds or trusts in its capacity as Independent Expert, as well as one of the top independent valuation providers for institutional investors.

AxiA.RE is the leading Independent Expert on the Italian territory, with a market share of approx. 35% in terms of volume of assets under valuation.

AxiA.RE independent valuations are carried out with consolidated estimate methods and in compliance with shared national and international standards, as a guarantee for transparency and professionalism.

The vast experience amassed by our managers and senior appraisers in both national and international settings allows us to produce accurate, professional valuations for all real estate asset classes.

LOAN SERVICES

The Valuation services we provide during the loan disbursement stage aim to define the market value of bank guarantees and manage the entire life cycle of arising engagements, from initial engagement to final delivery with the Bank.

The Loan Services offered by RINA Prime Value Services comply with the Italian Banking Association (ABI) Regulations, as well as Memorandum n. 285 issued by the Bank of Italy, ECB regulations, and IFRS 9 accounting standards. Our activity allows for an accurate definition of Market Value, alongside a multi-perspective compliance investigation (e.g. administrative, town planning, building, and cadastral) conducted on assets offered as security for lines of credit.

SUSTAINABILITY

Prime Green Solutions is the RINA Prime Value Services company specialized in building renovation activities in the bonus eco-earthquake area. Prime Green Solutions operates as a general contractor, supporting the customer in managing the tax credit.

STIPULATION OF CONTRACTS

Once approved, the condominium contracts the works by appointing the construction management, the safety manager, the tester and the energy certifier.

EXECUTIONS OF VALUES

Prime Green Solutions carries out the work, supervising and coordinating businesses and professionals.

REQUEST FOR INCENTIVES

The specialists assist the administrator in sending the necessary documentation to the Revenue Agency and ENEA to obtain incentives.

Prime Green Solutions, also thanks to the partnership with Gabetti Lab, operates in the construction of the building renovation works provided for by the legislation on Eco-Sisma-Superbonus:

- stipulating, as General Contractor directly with customers (condominiums, private individuals, etc.), procurement contracts and
- providing, directly or through collaboration with its partners, selected and qualified professionals, all integrated engineering services (feasibility studies, design, ongoing checks, etc.)
- supplying all the works through selected and qualified primary construction companies.

Prime Green Solutions guarantees the financial balance of the activities, normally purchasing the tax credit deriving from the execution of the works through the application of the discount on the invoice, credit guaranteed by the collaboration with leading companies that provide technical certification and cost congruity and the approval of the data relating to the documentation certifying the existence of the conditions that give the right to deduction.

QUALITY STANDARDS

The international standards endorsed by the Royal Institution of Chartered Surveyors – RICS as disciplined by the *RICS Red Book*.

The Italian Banking Association – *ABI Guidelines for the Valuation of Real Property used as collateral in Credit Exposure*.

The standards promoted by the International Valuation Standards Committee – IVS).

Principles and guidelines pertaining to AMC and Independent Expert relations promoted by *Assogestioni*.

RINA PRIME Value Services takes part in the ASSOimmobiliare Committee for Credit Valuation – *Valutazione per il Credito*, with Arch. Rolando, RINA Prime Value Services CEO, appointed as Committee Chairman for the on-going update and revision of the *Guidelines for the Valuation of Real Property positioned as collateral for credit exposure*.

Joint Bank of Italy – Banca d'Italia and Consob (the Italian Companies and Exchange Commission) Memorandum on the Valuation of Real Property held by common investment funds.

RINA Prime Value Services is a promoting partner of GBC Italia, in favor of sustainable construction.

Since February 2021 RINA Prime Value Services has been a GRESB partner.

The quality management system adopted by RINA Prime Value Services is ISO 9001:2015 certified.

OUR ADDED VALUE

Solid expertise

Our pride is our experience developed over **more than 25 years in the industry** on behalf of our management, who were the first to introduce and develop the professional real estate activities we provide on the Italian market. Our team is made up of dedicated **managers who specialise** in diverse fields (cadastre, town planning, construction, plants, environment, sustainability, economy-finance, insurance, etc.)

A qualified, constantly evolving and proactive team, working closely with the Client to better adapt our services to their specific needs.

International background

One of the company's main strengths is the diverse background and proven **talent** of our more than 100 employees in Italy and the more than 3,900 RINA professionals worldwide, as well as the set of shared values and joint experiences that guide our work day to day.

Thanks to a wide-ranging **global network** with 200 offices operating in 70 countries, we can ensure our support to market operators both nationally and abroad.

Innovative BIG DATA

The largest and most innovative Big Data in the industry.

A fully automated, state of the art management platform undergoing constant AI update.

Our Big Data system manages and combines information provided by:

- ✓ **the Free market**
- ✓ **the Socio-economic context**
- ✓ **ARES** the largest auction archive in Italy

Digitization of services

The objective of **innovating** and **digitalising** our services is at the core of our development policy, in our continued pursuit to create value for our Clients.

Thanks to our improved data management processes, we are able to offer market-leading services that provide our Clients a real competitive edge. The increasing connectivity of our systems allows us to foster new working practices, in the best interest of our staff.

Sustainable approach

We consider the **Sustainable Development Goals** which guide the UN's 2030 Agenda as a foundation for our company's actions and for the services we offer to our Clients.

RINA Prime Value Services strives to raise awareness on the topics of sustainable investment and the **green economy** on several fronts, through an expertise that ranges from implementing ESG models, ESG-compliant Due Diligence, and Green Building.

Client satisfaction

ISO 9001 **certified processes** and RICS-compliant performance standards, always conforming to the most recent national, EU, and international regulations. Highly evolved valuation models and exclusive economic-financial analysis procedures.

Providing the highest quality in accordance with **the particular requirements of our Clients** and their investment, ensuring **transparent and reliable results, always easy to read**.
